Objective

A 2nd-year B.Tech Computer Science student with good knowledge of programming and web development. I am interested in cybersecurity, IoT, and full-stack development. I have worked on some projects and participated in hackathons. Looking for an opportunity where I can learn and apply my skills.

Education

B.Tech - Computer Science and Engineering (4th Semester)

RBMI Group of Institutions, Dr. A.P.J. Abdul Kalam Technical University (AKTU)

Technical Skills

Programming Languages: C, Python, JavaScript, HTML, CSS

Tools & Frameworks: Git, GitHub, Figma, Flask, Firebase, Cloudinary

Core Competencies: Web Development, Full-Stack, Basic Cybersecurity, IoT

Projects

GestureSpeak - AI Hackathon 2.0

Made a sign language translator using TensorFlow Lite and MediaPipe. Presented this project at AI Innovation Hackathon 2.0.

FitStreak

Built a fitness tracking app using Flask, Firebase, and Cloudinary for database and media management.

Library Management System

Converted an old C-based console program into a web-based application with a proper user interface.

Certifications & Workshops

- Introduction to Cybersecurity - Cisco Networking Academy
- Python Programming with IoT (Workshop) - Softpro
- Learning Git and GitHub - LinkedIn Learning
- Complete Guide to Git - LinkedIn Learning
- HTML Essential Training - LinkedIn Learning
- CSS Essential Training - LinkedIn Learning

Achievements & Activities

Hackathon'26

Participated and showed good teamwork and technical skills. Event was organized by Institution's Innovation Council & Mechquish Club, RBMI.

Techzooka 2024 - 15th Annual Tech Fest

Actively participated in the college tech fest.

Self Learning

Regularly practice on TryHackMe and Cisco platforms to improve cybersecurity skills.
